

College Insurance Program (CIP)

General Information

Full time active community college employees pay 0.5 percent of gross earnings to help fund a health plan for retirees of community colleges, the College Insurance Program (CIP). SURS acts as agent in this regard by forwarding the 0.5 percent payment to Central Management Services (CMS), a division of Illinois state government that oversees such benefits.

CMS determines the benefits, premiums, and qualifications for the CIP, guided by the provisions of the law found in Illinois Compiled Statutes, Chap. 5, Act 375. Changes in this coverage and premium rates will be made by CMS as needed. SURS community college retirees may be eligible for this plan if their employment was considered to be full time.

Enrollment for eligible community college retirees is part of the SURS retirement process and decisions about participation may be made at retirement time. Any premiums will be deducted from the monthly SURS annuity check. Details about this coverage may be obtained by contacting SURS.

Employees at the City Colleges of Chicago do not participate in the CIP. Members, who retire from the City Colleges of Chicago, contact their employer's insurance office for information about health insurance benefits that may be available.
