• After retirement, an estimated 70-80% of pre-retirement income is needed to maintain pre-retirement lifestyle

• Social Security benefits could be affected by the Windfall Elimination Provision or the Government Pension Offset

• Personal savings is a key component to retirement security

• Take advantage of the new SURS Deferred Compensation Program - payroll deducted and tax deferred

Retirement Calculations

Traditional & Portable

• General Formula
  • Years of service x 2.2% x Final Average Earnings (FAE), less age reduction if applicable

• Money Purchase
  • Actuarial calculation based on contributions, interest accumulated, and actuarial age factor.
  • Money Purchase calculation not applicable if certification date is on or after 07/01/05)

• Minimum & Guarantee (PA89-616)
• Police & Fire
General Formula
Traditional & Portable

1. $2.2\% \times \text{years of service} = \text{percentage}$
2. Percentage $\times$ final average earnings (FAE)
3. Less age reduction, if applicable

Note:
80% maximum benefit = 36.364 years of service
Final Average Earnings (FAE)
Tier I

- Average of:
  - High four consecutive academic years, or
  - Last 48-months worked
    - Applies to hourly employees, or
    - Employees who receive a 12-month salary paid over 12 months

- SURS uses the higher of these calculations, if applicable
Final Average Earnings (FAE)  
Tier II

• Average of:
  • High eight (8) consecutive academic years within the last ten (10) years of employment, or
  • Highest consecutive 96 months of earnings during the last 120 months prior to termination
    • Applies to hourly employees, or
    • Employees who receive a 12-month salary paid over 12 months

• SURS uses the higher of these calculations, if applicable
General Formula Example

- Age at retirement = 60 years
- 28 years service credit
- Final Average Earnings = $67,500

**Calculation of Benefit:**

28 yrs x 2.2% = 61.6%

Annual Benefit: 61.6% x $67,500 = $41,580

Monthly Benefit: $41,580 ÷ 12 = $3,465*

*Assumes no age reduction applicable
Age Reduction
Example – Tier I

If less than 30 years of service credit, annuity reduced by $0.50 of 1% for each month under age 60.

RSP Investment Options
Two different paths for retirement savings

SURS Lifetime Income Strategy (default option):
• Target date portfolio that automatically adjusts as you age
• As you near retirement, money is automatically moved into a secure income portfolio that will provide guaranteed monthly retirement income that you cannot outlive
• Can be used as a target date fund with secure income feature turned off
• Provides a lifetime income option that includes access to health insurance without giving up access to your entire account balance

SURS Core Investment Options
• Select from SURS best-in-class fund line up to create your own portfolio
• Accept risk and rewards of investing in the market
RSP Illustrations

Monthly Income Illustrations

• Based on value of member’s account or amount of income secured at retirement

• During Pre-retirement counseling, SURS will provide illustrations for both Principal and LIS options

• To Obtain additional estimates, please do the following:
  • Principal: contact SURS via telephone or send a secure email by logging on to your SURS Member Website.
  • LIS: request estimate through SURS Defined Contribution Contact Center at 800-613-9543 and request to speak to an LIS specialist or use the LIS benefits estimator through the SURS member website.
  • TIAA: Members with frozen TIAA assets should contact TIAA directly for estimates.
RSP Distribution Options

Member chooses form of distribution at retirement

- **Lump sum**
  - Forfeit health insurance options
  - Partial distribution available
  - Cannot recontribute to SURS if returning to a SURS eligible position
  - Cash distribution or rollover to another qualified plan

- **Annuity**
  - 100% annuitization for health insurance
    - Annuitize through Principal or TIAA, if applicable

- **Guaranteed Lifetime Income from LIS**
  - At least 50% income conversion for health insurance
    - Can purchase income over time or at retirement
    - Offers flexibility
Distribution Options & Qualifying for Health Insurance

In order to qualify for health insurance benefits, you must be receiving lifetime income. At retirement, RSP members must do one of the following to retain eligibility:

1. If you have assets in the SURS Lifetime Income Strategy, convert at least 50% of your SURS LIS account balance to secure income

2. If you have assets in the core funds (or any pre-transition funds remaining in TIAA), annuitize 100% of those assets or move them to the SURS LIS to be used in the LIS calculation (above)

A combination of 1 and 2 is also permitted. You may convert at least 50% of your SURS LIS account balance to secure income and purchase an annuity with 100% of your assets that are invested in the core funds.

Members who take a total lump sum distribution forfeit health insurance eligibility & cannot recontribute to SURS in the future.

SURS Deferred Compensation Plan (DCP)

- Public Act 100-769, passed in August of 2018, requires SURS to implement a new Supplemental Plan
- Supplemental savings plays a critical role in retirement readiness
- SURS Deferred Compensation plan:
  - Is a 457 plan
  - Provides a vehicle for all active SURS members (regardless of plan choice) to save additionally via payroll deduction
  - Offers the same investment lineup as the RSP Plan
What is a 457(b) Plan?

• Supplemental savings
• Voluntary
• Employer Sponsored
• Contribute through Payroll Deduction
• Tax Deferred Retirement Savings*
• Pre-tax or Roth Option
• Different than 403(b)

* Distributions from employer sponsored retirement plans are taxed as ordinary income in the year they are withdrawn.
SURNS Deferred Compensation Plan (cont.)

• Why save supplementally?
  - SURNS members do not contribute to Social Security
  - It takes approximately 70-80% of pre-retirement income to maintain your standard of living
  - SURNS DCP can help you reach retirement goals
  - Additional savings is even more important for Tier II members

• Why choose the SURNS DCP?
