

State Universities Retirement System of Illinois (SURS)

Investment Update

September 2021

**Asset Allocation vs. Policy Target
as of September 30, 2021**

The functional asset class framework above was approved by the SURS Board of Trustees in September 2018, and was implemented starting with the fourth quarter of 2019 (second fiscal quarter of FY 2020).

Current asset class descriptions are as follows:

The Traditional Growth asset class includes investments in US Equity, Non-US Equity, and Global Equity.

The Stabilized Growth asset class includes investments in Credit Fixed Income, Core Real Assets, and Options Strategies.

The Non-Traditional Growth asset class includes investments Non-Core Real Assets and Private Equity.

The Inflation Sensitive asset class is comprised of a US Treasury Inflation-Protected Securities (TIPS) strategy.

The Principal Protection asset class is made up of investments in Core Fixed Income strategies.

The Crisis Risk Offset asset class is invested in Long Duration US Treasury Bonds, Systematic Trend Following Strategies, and Alternative Risk Premia Strategies.

Performance Summary as of September 30, 2021
